DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-5 are rejected under 35 U.S.C. 102(e) as being anticipated by Tokuda et al. (U. S. Pub. 2003/0038929A1).

Tokuda shows a device for transferring a pattern onto a photosensitive object W, using an exposure apparatus 2, 5, 51, 52 same as the applicant's. The device also includes a column chamber 5 and an exposure chamber 8. Both chambers are air-conditioned. A pressure detection device 11 detects pressure information relating to said chambers 5, 8.

3. Claim 22 is rejected under 35 U.S.C. 102(e) as being anticipated by Tokuda et al. (U. S. Pub. 2003/0038929A1).

Tokuda show a device for transferring a pattern onto a photosensitive object W, using an exposure apparatus 2, 5, 51, 52 same as the applicant's. Since this is a process by apparatus claim, then, no patentable weight was give to the limitations "according to claim 1".

Art Unit: 3749

Allowable Subject Matter

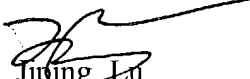

4. Claims 6-7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
5. Claims 8-21 are allowed.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Hagiwara (U. S. Pat. 6,297,871) shows an exposure apparatus.
